SHIELDED COPPER CABLING SYSTEM

The NextLAN Category 6A U/FTP 10G Copper Cabling System, featuring Leviton shielded connectivity components and Superior Essex U/FTP (STP) shielded cable, combines exceptional electrical performance with robust construction and superior functionality. The system exceeds all specifications for CAT 6A per the TIA-568-C.2 standard. In addition, the system is independently verified to provide alien crosstalk (AXT) mitigation and noise immunity that surpasses unshielded systems. This makes the NextLAN 10G Shielded Connectivity Solution ideal for healthcare, government, manufacturing, gaming and other environments where EMI may be present and data security is paramount.
