### **Relaunched NextLANSystems.com Provides User-friendly Resource Tools for Specifiers of High Performance Cabling Solutions**

**Atlanta, GA, October 05, 2009** – Superior Essex and Leviton Network Solutions jointly announced today the relaunch of [NextLANsystems.com](http://NextLANsystems.com), a Web site dedicated to communicating the value of NextLAN® high performance cabling systems.

The newly relaunched site features a broader offering of high performance optical fiber and copper systems from long-time cabling industry leaders Leviton, an advanced telecommunications solutions designer, developer and producer, and Superior Essex, a global leader in the design, manufacture and supply of wire and cable products. The site also features a more user-friendly navigation, improved and updated content, and new resource tools that give specifiers the information needed to spec-in NextLAN products.

NextLAN cabling systems are the result of joint engineering and testing efforts between Leviton Network Solutions and Superior Essex Communications to create world-class datacom cabling solutions. The two companies have established a sales, support and engineering alliance to co-develop new technologies.

#### **About Superior Essex**

Superior Essex manufactures and supplies a broad portfolio of wire and cable products for the Communications, Energy, Automotive, Industrial, and Commercial & Residential end-markets. It is a leading manufacturer of magnet wire, fabricated insulation products, and copper and fiber optic communications wire and cable. It is also a leading distributor of magnet wire, insulation and related products. Additional information on the Company can be found at [SuperiorEssex.com](http://SuperiorEssex.com).

#### **About Leviton**

Leviton Network Solutions was created 20 years ago to meet the growing need for telecommunications and high-speed data technologies. Today, the division is dedicated to producing complete network infrastructure systems for the enterprise, data center, government, health care, education, and residential markets. Copper, fiber, and power solutions include structured cabling systems, enclosures, PDUs and much more. All Leviton products are engineered to exacting standards and offer guaranteed performance. For more information, visit [Leviton.com](http://Leviton.com).
